Subject: LAR Questions

Thanks for looking at this. It will help if you can provide information related to each of the issues of concern. If the information is provided, I'm positive the issues will become silent. Note. I do not agree with the third issue below. I do believe this issue was among the 75.

i made some margin comments that you all should check on – for example, i couldn't find where the state said they were making changes to wis stat 167.

I'm not sure we committed to changing Stat. 167. I am not certain why we would have. We did however include 2011 Act 167 in the enclosures. This legislation addresses issue #62. I've attached it above.

In addition, the Wisconsin Legislature has made several statutory changes to Wisconsin's WPDES program. 2013 Wisconsin Act 20, section 2088, addresses in part issue #24, and 2011 Wisconsin Act 167, section 103, addresses issue #62. The Legislature also adopted 2013 Wisconsin Act 378 regarding Adaptive Management for TSS. The text of these legislative actions has been attached for your review.

also, i didn't see a description of the public notice process the state followed for rule packages 2 and 7 (i only saw this for package 6) – but i might be missing something.

I've attached the response to comments documents for Rule Package 2 (WT 28-10) and for Rule Package 7 (SS-14-12) the following language is in the board order. I have attached Rule Package 7 green sheet package that contains the summary of comments.

12. Place where comments are to be submitted and deadline for submission.

Public hearings were held on January 27, 2014. The deadline for written comments was also January 27, 2014.

101 S Webster St (use this for overnight deliveries)
PO Box 7921
Madison WI 53707-7921
Program fax: 608-266-5226
Program email: DNRLabCert@Wisconsin.gov

Written comments could also be submitted to the Department using the Wisconsin Administrative Rules Internet Web site at <http://adminrules.wisconsin.gov>.

A summary of comments received on the rule is provided as an attachment.

also, i'm not sure if i flagged this, but i don't think the items from the 75 issue letter were enumerated for the changes that were covered in rule package 7.

Rule Package 7 (SS 14-12) relates to approved methods for analysis of wastewater samples. These revisions are contained in ch. NR 219 Wis. Adm. Code and took effect on June 1, 2015. The Department believes these revisions resolve issue # 9 raised in your letter dated July 18, 2011 regarding potential inconsistencies with Wisconsin's National Pollutant Discharge Elimination System (NPDES) permit regulatory authority.
